

## **1. Introduction**

The Test Plan has been created to outline the tes approach. This includes goals, objectives, scopes, deliverables.

## **2. Objectives**

- Verify successful login with valid credentials.
- Prevent login with invalid or blank input.
- Ensure proper error handling and messages.
- Confirm UI consistency across browsers.

## **3. Scope**

### In-Scope

- Login with valid and invalid credentials
- Empty field validations
- Error messages
- Cross-browser testing
- Basic UI/UX checks

### Out of Scope

- Forgot password verification
- Performance testing

#### 4. Test Environment

- Operating System: Macintosh M1 Chip
- Browsers: Opera Gx

#### 5. Entry Criteria

- Login module developed and tested.
- Test environment configured and stable.
- Test data prepared.

#### 6. Exit Criteria

- All planned test cases executed.
- No critical/high severity defects open.
- Test summary report completed.

#### 7. Deliverables

| Deliverable         | For                                     | Date / Milestone |
|---------------------|-----------------------------------------|------------------|
| Test Plan           | Project Manager, QA Engineer, Test Team | 4th September    |
| Traceability Matrix | Project Manager; QA Engineer            | 4th September    |
| Test Results        | Project Manager                         | 4th September    |
| Test Status report  | QA Tester, QA Engineer                  | 4th September    |
